Major Improvements Scheduled for Orange Beach Marine Police Facility

November 7, 2022 (Orange Beach, AL) – The Alabama Law Enforcement Agency (ALEA) has named The Highland Group, a real estate development and commercial construction firm, as the general contractor to complete a major remediation project to the Orange Beach Marine Police facilities in Orange Beach, Alabama. While much of the damage was due to Hurricane Sally, Ryan Long, Vice-President of Preconstruction Services, has been working closely with local officials to identify their needs and provide a program to upgrade these facilities. "This facility is a key asset to [The Orange Beach Police Department](#) as well as other local law enforcement agencies, and the service these officers provide remains critical to the enjoyment of all who visit the area," according to Long. "Public Safety is the number one priority for the City of Orange Beach and this investment shows our official's commitment to that cause."

It's Highland's privilege to assist the Orange Beach Marine Division in getting their facilities back into form and functioning properly again. The Highland Group is always proud to serve its local law enforcement agencies in their efforts to keep their communities safe and secure. Construction is set to get underway soon with a total cost estimated at \$2 Million and is expected to be completed by Spring 2023.

coves, and estuaries of Orange Beach. Their patrol also includes 7 miles of coastline directly on the Gulf of Mexico extending out 1.2 miles to sea. The Marine Division serves as a key factor in keeping the Gulf Coastline secure, providing safety and calm waters to the citizens of Orange Beach. The Orange Beach Marine Patrol is a division of the Orange Beach Police Department and serves a key role in The Alabama Law Enforcement Agency's Marine Patrol (AMP) division.

The Alabama Marine Patrol:

The Alabama Law Enforcement Agency's Marine Patrol (AMP) division has served its communities for nearly three decades after being founded in 1993. Its mission is to enhance safety and promote the responsible use of resources on Alabama's waterways through enforcement, education, and community activities. With Alabama's favorable weather conditions and [abundant waterways](#), boating is a popular activity across the state. Over one million boaters enjoy Alabama's one million acres of lakes, 1,600 miles of rivers, and 53 miles of coastlines each year.

The Marine Division consists of [three districts](#) that divide the state: Northern District, Central District, and Southern District. The Northern District covers 27 counties with major waterways along the Tennessee, Coosa, and Black Warrior Rivers, and numerous smaller rivers and lakes. The Central District covers 32 counties with major waterways along the Coosa, Tallapoosa, Alabama, Tombigbee, and Chattahoochee Rivers, and numerous smaller rivers and lakes. The Southern District covers eight counties with major waterways along the Alabama and Tombigbee Rivers, Mobile Bay, Gulf of Mexico, and numerous smaller rivers and lakes.
