The Highland Group is Building a new Office for Bentley Systems in Huntsville, AL

December 7, 2022 (Huntsville, AL) — The Highland Group, a leading real estate development and commercial construction firm, has been contracted by [Bentley Systems](#), an infrastructure base software developer, to build their firm a new state-of-the-art office facility in [Cummings Research Park](#) (CRP) in Huntsville, Alabama. The building has been leased to Bentley through [Colliers International](#), a leading investment management and real estate company.

Bentley’s office facility in Cummings Research Park will place the firm in an extremely collaborative space surrounded by over 300 other employers and companies located in a city that is commonly regarded as the “Silicon Valley of the South”. CRP is a tech and community hub in the heart of [“The Rocket City”](#) that consistently houses research companies pioneering the future through the creation of cutting-edge systems, software, studies and other innovative technologies. Aside from being a business center in Huntsville, the park contains a variety of housing, and recreational opportunities for its tenants making it a premier place to locate and expand.

“At Highland, we pride ourselves in being forward-thinking in our efforts, selection of clients, and the impact any kind of collaborative projects will have in their respective fields,” said Highland’s Vice President of North Alabama, Michael Barnes. “When we partnered with Bentley Systems we understood their work required a space that could better assist them in their

software development, as well as one that could support their future growth in Huntsville. I'm excited to see what Bentley Systems will do in Huntsville and equally excited to continue this relationship with them going forward," added Barnes.

Construction on this new state-of-the-art office space for Bentley Systems is estimated to be completed in early 2023. The Highland Group's Huntsville team is currently at work on several other extensive construction projects and developments across North Alabama. The firm is excited to continue developing industry-leading projects for tech companies and break-through businesses alike that are looking to relocate to "Alabama's Silicon Valley" as Huntsville continues to see [record breaking growth](#).

Bentley Systems:

Bentley Systems Inc., is an American-based software development company that develops, manufactures, licenses, sells, and supports infrastructure [software and services](#). Founded in 1984 in Exton, PA by Keith A. Bentley and Barry J. Bentley, for over 37 years, Bentley has served the engineers and other professionals responsible for designing, constructing, and operating sustainable infrastructure systems across the globe. These systems are used in the maintenance of roadways, transit systems, rail networks, water treatment plants, wastewater processing, municipal utilities, construction works, and industrial facilities.

Some of their premier software products offered to their clients include MicroStation-based applications for modeling and simulation, ProjectWise for project delivery, AssetWise for asset and network performance, and the iTwin platform for infrastructure digital twins. [Bentley Systems](#) employs more than 4,000 colleagues and generates annual revenues of more than \$1 billion in 186 countries. With Bentley's broad range of software services, strong global presence, and emphasis on its commitment to its neighboring communities, Bentley prides itself on being an engaged world-class organization.
